[Appium]
[Appium] ==
[Appium]   DEPRECATION WARNING:
[Appium]
[Appium]   The 'automationName' capability was not provided in the desired
[Appium]   capabilities for this Android session
[Appium]
[Appium]   Setting 'automationName=UiAutomator2' by default and using the
[Appium]   UiAutomator2 Driver
[Appium]
[Appium]   The next major version of Appium (2.x) will **require** the
[Appium]   'automationName' capability to be set for all sessions on all
[Appium]   platforms
[Appium]
[Appium]   In previous versions (Appium <= 1.13.x), the default was
[Appium]   'automationName=UiAutomator1'
[Appium]
[Appium]   If you wish to use that automation instead of UiAutomator2, please
[Appium]   add 'automationName=UiAutomator1' to your desired capabilities
[Appium]
[Appium]   For more information about drivers, please visit
[Appium]   http://appium.io/docs/en/about-appium/intro/ and explore the
[Appium]   'Drivers' menu
[Appium]

[Appium]
==
[Appium]
[Appium] Appium v1.19.1 creating new AndroidUiautomator2Driver (v1.59.0) session
[debug] [BaseDriver] W3C capabilities and MJSONWP desired capabilities were provided
[debug] [BaseDriver] Creating session with W3C capabilities: {
[debug] [BaseDriver]   "alwaysMatch": {
[debug] [BaseDriver]   "platformName": "Android",
[debug] [BaseDriver]   "appium:deviceName": "Android Emulator",
[debug] [BaseDriver]   "appium:uiautomationName": "UiAutomator2",
[debug] [BaseDriver]   "appium:appPackage": "com.ebay.mobile",
[debug] [BaseDriver]   "appium:appActivity": "com.ebay.mobile.activities.MainActivity",
[debug] [BaseDriver]   "appium:customFindModules": {
[debug] [BaseDriver]   "ai": "test-ai-classifier"
[debug] [BaseDriver]   },
[debug] [BaseDriver]   "appium:shouldUseCpactResponse": false
[debug] [BaseDriver]   },
[debug] [BaseDriver]   "firstMatch": [
[debug] [BaseDriver]   {}
[debug] [BaseDriver]   ]
[debug] [BaseDriver] }
[BaseDriver] The following capabilities were provided, but are not recognized by Appium:
[BaseDriver]   uiautomationName
[BaseDriver]   customFindModules
[BaseDriver]   shouldUseCpactResponse
[BaseDriver] Session created with session id: a3e19287-a91e-41c4-9802-f45ed5aad955
[UiAutomator2] Starting 'com.ebay.mobile' directly on the device
